

MERRY CHRISTMAS, VIRGINIA

Don't You Believe Those Santa Doubters

This is a copy of the Santa Claus editorial published many years ago in the New York Sun.

We take pleasure in answering at once and thus promptly the communication below, expressing at the same time great gratification that its author is numbered among the friends of the Sun:

"Dear Editor:
"I am 8 years old.
"Some of my little friends say there is no Santa Claus."
"Papa says if you see it in the Sun it's so."

"Please tell me the truth: Is there a Santa Claus?"

VIRGINIA O'HANLON,
"115 W. 95th St."

Virginia, your little friends are wrong. They have been affected by the skepticism of a skeptical age. They do not believe except they see. They think nothing can be which is not comprehensible by their little minds. All minds, Virginia, whether they be men's or children's, are little. In this great universe of ours, man is a mere insect, an ant, in his intellect, as compared with the boundless world about him, as measured by the intelligence capable of grasping the whole of truth and knowledge.

Yes, Virginia, there is a Santa Claus. He exists as certainly as love and generosity and devotion exist, and you know that they abound and give to your life its highest beauty and joy. Alas how dreary would be the world if there were no Santa Claus! It would be as dreary as if there were no childhood. There would be no childlike faith then, no poetry, no romance to make tolerable this existence. We should have no enjoyment except in sense and sight. The eternal light with which childhood fills the world would be extinguished.

Not believe in Santa Claus? You might as well not believe in fairies! You might get your papa to hire men to watch in all the chimneys on Christmas eve to catch Santa Claus, but even if they did see Santa coming down, what would that prove? Nobody sees Santa Claus but that is no sign there is no Santa Claus. The most real things in the world are those that neither children nor men

see. Did you ever see fairies dancing on the lawn? Of course not, but that's no proof that they are not there. Nobody can conceive or imagine all the wonders that are unseen and unseeable in the world.

You may tear apart the baby's rattle and see what makes the noise inside, but there is a veil covering the unseen world which not the strongest man nor even the united strength of all the strongest men that ever lived could tear apart. Our faith, fancy, poetry, love, romance can push aside that curtain and view and picture the supernatural beauty and glory beyond. Is it all real? Ah, Virginia, in all this world there is nothing else so real and so abiding.

No Santa Claus? Thank God he lives and lives forever. A thousand years from now, Virginia, may, 10 times 10,000 years from now, he would continue to make glad the hearts of childhood.

Clewiston Jaycees Win Gridiron Tilt 16-0 With Passing

The Clewiston Jaycees handed the Belle Glade Jaycees their second defeat in as many years during the football classic played Friday at Cane Field in Clewiston. The final score was 16-0.

J. T. Norris of the Clewiston eleven passed for two touchdowns which spelled Belle Glade's downfall.

The local squad had trouble with blocking—and apparently had little pass defense worked out. A bad punt and a poor snap from center also led to the defeat.

Norris passed to end Johnny Jackson in the first quarter for the first touchdown. Clewiston started their drive on the Belle Glade 27 yard line after a bad punt and two plays later Norris passed from the 18.

In the second quarter Norris educated an hit Bob Giddens for the second score. During the third period three Clewiston players, Calvin Swindell, Bill Semper and Charles Roberts dumped half-back Ray Caldwell in the end zone for a safety and two more points.

A sparse crowd witnessed the battle.

Three High School Senior Girls Vie for National Homemaking Awards Dec. 5

Three Belle Glade High School senior girls have participated in a nation-wide contest conducted by General Mills, Inc. This scholarship program is designed to assist the schools in homemaking education.

The three seniors, Ellen Hemphill, Jane Steele, and Louise Stroble took the top three places in the contest. They have been tagged "Homemaker of Tomorrow" in the national contest.

A total of more than 255,000 career-minded graduation girls in over 10,000 of the nation's high schools will be testing their aptitude for the career that awaits each of 10 of them—homemaking.

A total of 162 schools and 6,200 girls in this state alone will take the 50-minute written examination which will be the basis for selecting the final winners in the scholarship race.

The highest scoring candidate in each state will be awarded a \$1,500 scholarship and each state runner-up gets a \$500 award.

Other prizes and awards await state winners in national competition next year.

In further information was urged to contact the Naval Air Reserve Unit in Miami or come in person on Saturday or Sunday.

Commander Chaires will be at the local postoffice in another six to eight weeks for another visit. He is assisted in the recruiting by Chief Edwin Simmons, Chief Master and three enlisted men: Fred Shafer, AM2/c, Ken Smith, MM3/c and Walt Rickey, AD2.

LOCAL SENIOR STUDENTS OFFERED APTITUDE TESTS BY EMPLOYMENT SERVICE

At least 12 seniors from Glade High School will take general aptitude tests here Wednesday as part of a service offered by the State Employment Service office here.

The tests, given to students who want counseling in finding a job after graduation, have been designed to show the students' abilities and desires about their vocational choices.

In charge of the Counseling Program here is Mrs. Imogene Fontaine of the local Employment office. Mrs. Fontaine explained that only those students who are not planning to attend a college or career field will be tested.

After the tests have been

tabulated the task of counseling begins where each student is told about the economic characteristics of the job. He will also be given data about the various requirements and training necessary to qualify in any chosen skill.

These tests enable the student to become a valuable part of the community and also an asset to one's self with increased earning power.

City Moves To Provide More Police Protection To City's Negro Sector

The Belle Glade city commission met Friday to discuss obtaining better police protection in the negro section of the city.

It was agreed that the city manager and police chief would arbitrate a solution to the immediate problem of adequate protection in that sector.

City Manager Clarence Robinson said this week that one more patrolman would be added to the force following last Tuesday's city service tests for grade 8 patrolman. Vacancies also exist for the addition of one white patrolman.

The budget, Robinson said, would not allow further addition at the present time since the budget has been prepared for the fiscal year ending Oct-

ober, 1956.

The prospects of hiring a part-time-Belle Glade and the city were discussed; however, no final action was taken.

The next regular commission meeting is set for December 14.

County Solons Look To Glades Projects

Progress Made For Health Center, SR 80, New Armory

This week the county commission made headway on a number of projects which will affect Belle Glade and the Glades area.

Plans for improvement of State Road 80 is still among priority roads to be given attention soon. Commissioner Paul Hardin announced Monday that \$200,000 would be spent to resurface SR 80 between Belle Glade and the Hendry County line at an additional \$80,000 would be spent to resurface SR 50 between Belle Glade and Six Mile Bend.

A call for bids for construction of health centers at Belle Glade and Pahokee has been authorized by the county commission. Plans are now ready to begin as soon as a bid is

accepted.

Construction of the two centers, which will be built by combined city, county and federal funds, has been under consideration for some time while the federal authorities gave final approval for the plans.

The commission learned this week that U. S. senators, George Smith and Spessard Holland and Congressman Paul Rogers are attempting to get an early release of federal funds for the local National

Guard army. The project hit a bottleneck last month when it was learned that federal funds would not be available at this time. The commission had sought the help of Florida's congressional delegation to win a release of the federal grant.

The Belle Glade Chapter of the Future Farmers of America opened their meeting at 8:00 P. M. on December 3 with President John Paul Lyons presiding.

The first item — to come before the Chapter was a motion to sponsor, jointly, with the F. H. A., a dance. The time and place will be announced later.

There have been many people who have spent their time and money toward the building of the betterment of the chapter. The chapter, to show their appreciation to these people, voted to send them Christmas cards.

The Everglades Fair Committee is trying to bring back to the Glades better farms. The Chapter donated five dollars to this cause.

After much consideration, the chapter decided that they would make more money by cashing in their war bonds and buying cattle.

The meeting closed with the chapter advisor giving out Green Hand and farming degree pins.

JUNIOR RED CROSS

Belle Glade had the honor of being host for the county Junior Red Cross meeting, which was held on Tuesday, December 6. The meeting was held in the activity room, and was begun by the group singing the Junior Red Cross Pledge.

Other schools present at the meeting were: Northboro, Riviera Beach, Palm Beach High, Central Junior High, Lake Worth, and St. Ann's High School in Hialeah.

South Main 12-9-11 The main issue of the busin-

ness meeting was getting the Christmas activities in line. Also discussed were the leadership training center which will be held on January 13 and 14. The Belle Glade J. R. C. is proud to announce that Janice Cole will be the director of this camp. Also Leonard Higbee is to be a counselor.

A movie was shown of all the different activities of the Palm Beach County J. R. C. In it, there were scenes of last year's training center, elementary school meeting and activities, and of veterans receiving favors made by J. R. C. Leonard Higbee, Belle Glade's J. R. C. president, entertained the group with three selections on the piano. Among these were: "The Minute Waltz," "Monastery Garden," and "Madrigal."

Bunny Whitworth and Judy "Wittmore" did a vocal duet, "Goodnight Sweetheart, Goodnight."

Refreshments of cupcakes and cakes were served. The local J. R. C. would like to thank the Home Economics Department for making the cupcakes.

You Can Make a Big Christmas Candle

You can make a big, long-burning candle to fit into your Christmas decorations if you have a number of odds and ends of partly burned candles around the house. Melt them and pour into cardboard containers and remold. Use ice cream cans, oatmeal containers or others. Use plain cord for a wick. When the wax is beginning to set, tie the wick to a pencil and suspend it in the wax. Let set hard, remove carton and pour in a nice candle for your table.

THE ANSWER IS GOD

Attend church of your choice.

Water Color Picture Wins First Prize For Ms. Harold E. Riedel

Local amateur artist, Mrs. Harold Riedel, was awarded first prize by popular vote for the water color painting in the above picture, at the second annual county-wide art show held at the St. Lucie County Library in Ft. Pierce.

The painting was among 58 entries in all water colors in a field of 37 professional and amateur artists competing during National Art Week. The pictures were on display the week of Nov. 7 those selected were on display throughout Nov. 26.

Winning second in water colors was Sherry Langley, Wind Julie Enders and Joe Duval. In oils, Rudolph Nitsche, winter resident of Ft. Pierce from Rochester, N. Y. was awarded first and second prize. Wayne Seese, art teacher of Indian River Art School and Nell Pelouse of Jensen Beach, won third prize.

All of the artists were students of Wayne Seese in Ft. Pierce, except Langley. Mrs. Riedel who paints as a hobby has many pictures since taking up art work several years ago. But it just came naturally as her only training was an art course under the local art teacher, Mrs. Henry Earwood and under the instruction of Mr. Seese last fall.

Christmas party for members of the Belle Glade Woman's Club will be held to-night at 8 p. m. with husbands as special guests. The party will be held at St. John the Apostle past week neared the peak at

The volume the past week on all items there totaled 25,692 bushels. M. V. Meekison of Wauchula's market says, "Auction sales for this season are about over. There are still some late cucumbers and peppers to be harvested, but not sufficient quantity to attract buyers."

At Pahokee there is a moderate supply of okra, peas, but-terbeans and plenty of leafy vegetables with the market dull on most items. Beans are in good volume, corn, radishes and celery are in fair supply with a light quantity of cabbage.

Swindlers Likely to Visit South Florida, City Official Warns

This is the time of the year for the swindlers and con artists to move into south Florida, city tax assessor Clarence Tilton warned this week.

It has been reported by the Miami-Dade County Chamber of Commerce last week that the "Williamson gang" in particular was probably headed for Florida. This gang of swindlers have operated in this area before. They're known through out the nation as artists in fleeing the public out of hard-earned dollars.

The group usually deal in rugs which they claim are hand-made which are merely cheap grade machine-made merchandise.

Another facet of their illegal ways is the paint job which they do on houses and build-

ings. The paint usually washes off with the first good rain. Tilton advises caution in dealing with door-to-door salesmen. Ask for their Chamber of Commerce approval card and their city license. Better still, make it a rule to deal only with local or county merchants at all times.

These men couldn't operate if the public wasn't so gullible. Arthur S. Genet, Chesapeake & Ohio Railway vice president, was recently named president of Greyhound Corporation. Genet has been cited as a wizard in traffic promotion.

uated. All reports are scheduled to be completed by Dec. 9 in a tentative form.

East Lake Children's Choir Notes

The Women's Society for Christian Service of the First Methodist Church of Pahokee presented the Children's Choir of the East Lake School in a pre-holiday concert on Monday evening at eight-o'clock. Following an impressive candle-light procession the choir was heard in a jubilant rendition of traditional carols and Negro spirituals. "The Little Shepherd" - A Christmas Interlude was also presented in an effective setting. Characters were portrayed by Robert Blount as The Pilgrim, Ernestine Bailey as The Girl, and Charlie Howard as The Little Shepherd.

Following the program, the guest were served delightful refreshments in the parish hall of the church. This is the third annual presentation of the Children's Choir by WSCS of which group Mrs. Robert Fritend is the president.

Joyballs of Christmas Will Ring on December 14th

The seventh annual presentation of Christmas Pagantry by pupils of the East Lake School will include the traditional JOYBALLS OF CHRISTMAS and THE LITTLEST SHEPHERD - A Christmas Interlude. This program will be presented at New Hope Baptist Church in Pahokee on Wednesday evening, December 14th, at eight-o'clock. It is one of the most beautiful plays of the Christmas Season and has become somewhat of a tradition in this little lake shore community in the Glades. Come early to get a seat. Bring a silver offering for the Christmas Seal Sale and help wipe out T. B.

BAPTIST HEAR DR. ROYAL PURYEAR

One of the highlights of the Kissimmee Valley Everglades Baptist Association and Women's Convention meeting with the Shiloh M. B. Church in Pahokee this week, was Dr. Royal W. As of the end of the third month, there were 485 pupils enrolled since school began on September first. Classrooms are so crowded that it may be necessary to go on double-session in one or two grades until the new edition is completed. The peak figure is not usually reached until during the 5th month.

Muck Fire Danger Greater Now Than Ever, Says Bender

The worst threat of muck fires in the Glades in the last ten years is shaping up this month, according to Guy J. Bender, Chief of the Everglades Fire Control.

"The whole world is one fire and I haven't got enough water to put it out," Bender declared. "We have a situation which hasn't existed in the Glades for a period of years. It's similar to the conditions we had in 1944 and 1945."

Bender went on to say that the Everglades area was running a 20 inch deficiency in rainfall and that there was a deficiency all over the district under his jurisdiction.

About two-thirds of the fires are man-made," Bender explained as he talked about the number of fires in the past month. He said there had been 10 or 12 in that time and some were still burning.

Drought conditions are not as serious as they could be, however, the time is right and serious trouble is in sight.

Bender said if there isn't a considerable amount of rainfall in the near future, the farmers will be in trouble. No relief is in sight until May.

As the cold snaps occur, Bender said, and vegetation on road shoulders and ditch banks

is killed, the threat of fire increases.

Lake Level Danger
Bender said the expected low level of Lake Okechobee and problems of irrigation resulting from the low level would cause increased danger of fires on the muck.

This was confirmed by a spokesman for the Corps of Engineers at Clewiston.

A. R. Broadford said the present lake level was 12.9 which represents a drop of 4 feet since Nov. 1. The lowest level on record was 10.6 in 1932. The engineers do not expect present levels to reach lower, however estimates for the next seven months say the level could approach this figure.

Precautions
Bender outlined several reasons for the fires and stated that certain precautions by individuals would greatly assist the Fire Control.

Farmers and contractors should watch their pickers to make sure trash and cigarette butts are not discarded in the field. Trash should not be thrown on road shoulders. Not only is it dangerous, it is a violation of the law.

Another threat to the muck is shrinkage due to a lack of water. The danger of this and muck blowing away because of a low water table will be greatly increased during the next few months.

One factor in the critical condition of the muck is due in part to a precaution made by engineers which back-fired.

The lake level was left low during September and October as a natural precaution toward heavy seasonal rains and hurricanes. Neither occurred, and as a result the water levels remained low.

1956 Conservation Plans Announced For Local Farmers

The 1956 agricultural conservation program has been announced by the Palm Beach county Agricultural Stabilization and Conservation division of USDA.

J. W. Strickland, local ASC County office manager, said a letter has been mailed to each farm operator in the county, and any operator not receiving one should contact the ASC offices in the Mounts Building, West Palm Beach or local office in the Sanders Building.

The period for filing request for federal cost-share under this program is from now to January 13, 1956, Strickland said.

Any farmer who is owner, landlord, tenant or sharecropper is eligible to request federal cost-share assistance for carrying out eligible conservation practices.

"As further assistance to farmers participating in the 1956 agricultural conservation program," Strickland said, "we will include the CMS which was started the latter part of 1955."

"The purpose of the CMS plan (Conservation Material and Service) is to furnish material for carrying out approved conservation practices to farmers, on request, in lieu of cash payments under the agricultural conservation program."

The larger the island of knowledge, the longer the shoreline of wonder.
